4K Ultra HD Tempered Panel

The LED panel displays the 4K Ultra HD image with richer color than ever before. Moreover, the surface is safe enough for students to get inspired into a burst of creativity.

Android OS Embedded

CP754I's built-in Android OS covers wide range of apps and tools, and easily lets teachers and students annotate and collaborate simultaneously.

Responsive 10-Point Touch

The responsiveness delivers a simultaneous touching pleasure among students, which allows them to experience the most smoothest and fluid writing and drawing motions.

MyndShare Software

MyndShare interactive software is designed for use with CP754I to make the most intuitive collaboration, including annotate, present and poll on students' Chromebooks, notebooks, or tablets.

Wirelessly Seamless Integration

The exclusive integration technology enables CP754I to work seamlessly with an AVer wireless visualizer (document camera) and to enhance the experience of mobile teaching.

Total Plug-n-Play

The great compatibility with popular OS makes CP754I the best aid of teacher. The cross-platform plug and play changes the way teachers teach and students learn.
