

GSP 370

Closed acoustic wireless gaming headset

Designed for the gamer who demands an immersive audio experience to take their game enjoyment to a new level, the wireless GSP 370 delivers up to 100 hours of gaming on a single charge.

Proprietary wireless technology ensures stable, lag-free transmission while integrated digital sound processing provides exceptional bass performance and acoustic clarity. Turn on 7.1 surround sound processing with the EPOS Gaming Suite and customize your audio.

A microphone with a flexible, lift-to-mute boom arm provides clear, crisp chat, especially when used with the EPOS Gaming Suite's digital noise cancellation.

Comfort is ensured in long gaming sessions by a padded headband that reduces pressure on the head. A ball-joint hinge angles the ear cups to the shape of your face for an ergonomic fit.
