

MG41 Series

Cellular Gateways

Overview

The Meraki MG41, part of the MG cellular gateway family, enables high-speed, always-on reliable network connectivity for business-critical operations and a hybrid workforce through cellular deployments with gigabit primary or backup cellular uplinks.

MG41: Superfast, resilient connectivity anywhere

MG41 can instantly provision primary cellular connectivity across thousands of sites at once without waiting on broadband or any change in infrastructure, enabling faster business expansion.

Deliver primary gigabit connectivity with MG41 or pair with Meraki MX and SD-WAN to allow for the optimal bandwidth management needed for today's cloud-first organizations.

With gigabit-level backup cellular connectivity, businesses can rely on MG41 for a consistent experience 24/7/365 to increase business uptime and network resilience.

MG41 allows businesses to confidently deploy primary gigabit cellular at sites where there's no broadband coverage, the carrier coverage is initially unknown, or there's a varying level of availability and network reliability from multiple regional carriers.

The dual SIM gives the flexibility to switch to a better performing carrier network through auto-SIM failover or switch to the other carrier when either of the SIM reaches the data cap.

Product highlights

- Built-in CAT 18 connectivity
- Supports two separate downstream router connections
- Small form factor
- PoE or DC powered
- IP67 rating
- Manageability from the Cisco Meraki dashboard
- Self-configuring cellular gateway
- Automatic firmware upgrades with scheduling control
- Extensive API support
- Email, SMS, and mobile push notification alerts
- Ping, traceroute, cable testing, and link failure detection with alerting
- Remote packet capture
- Combined event and configuration change logs with instant search
- Self-configuring, plug-and-play deployment
- Sleek, low profile design
- Built-in CAT 6 LTE connectivity
- IP67 rated for environments of all types

Models: MG41-HW

Recommended use cases	Wired uplink to MX or any third-party router
Recommended downstream devices	Up to 2 devices
LAN Interfaces	2
PoE IN Port	2x 802.3af compatible
Dimensions (w x d x h)	168 mm x 168 mm x 35 mm
Weight (without accessories)	670 g
Power supply	12V/1A, 48-57V DC/0.35A
Operating temperature	-22°F to 122°F (-30°C to 50°C)
Humidity	5% to 95% non-condensing

Models: MG41E-HW

Recommended use cases	Wired uplink to MX or any third-party router
Recommended downstream devices	Up to 2 devices
LAN Interfaces	2
PoE IN Port	2x 802.3af compatible
Dimensions (w x d x h)	168 mm x 168 mm x 35 mm
Weight (without accessories)	670 g
Power supply	12V/1A, 48-57V DC/0.35A
Operating temperature	-22°F to 122°F (-30°C to 50°C)
Humidity	5% to 95% non-condensing

Features

Self-configuring, cellular primary

If a certified carrier SIM card is inserted, the MG41 brings up the cellular connection and automatically connects to the Meraki cloud, downloads its configuration, and joins your network.

Industry-leading cloud management

Meraki's award-winning cloud-management architecture unifies LAN and management under a web-based dashboard

and scales easily from small to large multi-site deployments with tens of thousands of devices. The Meraki dashboard provides intuitive yet powerful role-based administration, firmware updates, configuration changes, email alerts, and easy-to-audit change logs.

The screenshot shows the Meraki dashboard for an MG41 device. The left sidebar contains various status indicators: a location pin icon with a question mark, a public IP address, Ethernet 1 speed (1000 Mbit, full duplex), IMEI, serial number, tags, notes, and firmware status (Up to date, Current version: MG 2.0). The main content area is titled 'Configuration' and includes tabs for Summary, Uplink, DHCP, Location, and Tools. The 'Uplink' tab is active, showing details for General, WAN, SIM Cards, and Cellular. The WAN section shows IPv4 configuration with a disabled status. The SIM Cards section displays two SIM cards: SIM 1 (Primary, Activated) and SIM 2 (None, Not Primary). The Cellular section shows an active status with excellent LTE signal strength from T-Mobile.

Local Status Page (LSP)

Connection	Configure	Ethernet	Cellular Status
------------	-----------	----------	-----------------

Cellular Status	
IMEI	356299100340684

MG41 specifications

Performance

1.2 Gbps (DL)/ 150 Mbps (UL) Cat 18 integrated cellular

Interfaces

2x PoE IN

LAN interfaces: 2 x GbE

1x CAT18 integrated cellular

Monitoring and reporting

Throughput, connectivity monitoring

Org-level change logs for compliance and change management

Environmental specifications

Power: 12V/1A, 48-57V DC/0.35A

Operating temperature: -22°F to 122°F (-30°C to 50°C)

Humidity: 5 to 95% non-condensing

Desktop or wall mount or ceiling mount
(all standard mounting hardware included)

Remote diagnostics

Live remote packet capture

Real-time diagnostic and troubleshooting tools

Management

Managed via the web using the Meraki Cloud Controller

Single pane of glass management of wired and wireless networks

Zero-touch remote deployment (no staging needed)

Automatic firmware upgrades and security patches

Centralized policy management

Org-level two-factor authentication and single sign-on

Role based administration with change logging and alerts

Integrated cellular

Support for major bands: 2, 4, 5, 12, 13, 14, 48, 66, 71
*Refer to the datasheet for the full list

1.2 Gbps Cat 18 LTE

Additional regulatory information:
PTCRB (U.S.), RCM (ANZ, APAC), GCF (EU)

Supported UICC/SIM

2x external SIM cards

Regulatory

FCC (US)

CB (IEC)

CISPR (Australia/New Zealand)

PTCRB (North America)
